Cardinal pole catholic school ofsted report

Video produced by St Bonaventure alumnus Jordan Velinor: Website: www.vmisuals.co.uk Facebook: www.facebook.com/velinormediavisuals/ Vimeo: Question: [Info@vmvisuals.co.uk](https://www.youtube.com/watch?v=Info@vmvisuals.co.uk) My son is blessed to go here. Parental comments to the Inspector ofSTED, 2009. My son was blessed to go here. Parental comments to the Inspector ofSTED, 2010. My son was blessed to go here. Parental comments to ofsted inspectors, 2011. My son was blessed to go here. Parental comments to ofsted inspectors, 2012. My son was blessed to go here. Parental comments to ofsted inspectors, 2013. How long until the next inspection? A good school is inspected about once every four years. We can also check at any time if we have concerns. We usually give notice of weekday afternoon before inspection. We can also check schools without notice. This School Guide heat map has been plotted using official student data taken from the last School Census collected by the Department for Education. This is a visualization of where pupils live at the time of the annual School Census. Our heat map uses postal code groups instead of individual postcodes, and has a natural soft edge. All pupils are included in the mapping (i.e. children with siblings who are already in school, high priority pupils and selective and/or religious admissions) but we may have removed the 'outlier' statistics with more remote postcodes that do not reflect majority admissions. For some schools, a heat map may be a useful indicator of the catchment area but our heat map is not the same as the catchment area map. The catchment area map, published by a school or local authority, is based on geographic admission criteria and shows the actual cut-off distance and predetermined catchment area for one year of admission. This information is provided as a guide only. The areas from which pupils are admitted to school may change from year to year to reflect the number of siblings and pupils accepted under the high priority admission criteria. 3 steps to help parents gather catchment information for school: Check out our heat map. They provide useful indicators of common areas that admit pupils to school. This visualization is based on all the students present who were present at the time of the annual School Census. Use the link to Local Authority Contacts (above) to find catchment area information based on one year of receipt. This is especially important if you are considering applying to school. On each school page, use the links to visit the school's website and find information about individual school admission criteria. Geographic criteria are applied only after pupils are accepted on higher priority criteria such as Safeguarding SEN, siblings, etc. See the student's heat map FAQ for more information about the student's heat map data source. Jane Heffernan (Executive Headteacher) enquiries@cardinalpole.co.uk Bus: 30 / 425 / 48 / 55 / 106 / 236 / 254 / 276 / 277 / 394 / 425 / / / Nearest station D6 / W15: Hackney Central / Hackney Downs / Homerton / Manor House Cardinal Pole School is a Catholic community with a long history of success and state-of-the-art facilities. It is an established and outstanding 11-19 Catholic comprehensive school with many achievements and experience and an outstanding Sixth Form. Your vacancy can check if there are any current vacancies at this school using our High School Jobs List. Please note that school vacancy information is only relevant to applications made after the start of the school year (applications within the year). Admissions The admission criteria listed below establish how the school will admit pupils. This includes the maximum number of students to be accepted for the relevant year group, more subscription criteria and information about waiting lists. Please note that this school is a mixed school. As a Catholic school it has some specific admission criteria that require a complete additional information form. These numbers tell you about the performance of students in this school or college at the end of their 16 to 18 education phase. These figures were published in April 2020 and relate to students completing their 16 to 18 studies in the summer of 2019, unless otherwise stated. The indicated number of students for each type of qualification is the number who completed 16 to 18 studies at this school or college in 2019. Some students belong to more than one group – for example, a student studying A-level will be counted in 'A-level' but also in 'Academic qualification'. On Thursday, year 5 our children held a tasting session at Cardinal Pole School as a warm-up of their transition to secondary school in September 2017. Jared Ravelo at SA said of the trip. We cross-stitched our initials into patterns - it was difficult but fun. Thanks to Mr McQuaid, Mrs Toms, Mira and Mr Woodhouse for accompanying the children.
